

COMPOSER

much more than just a POS

- IR Touch with vandal resistance
- Built in wireless, 802.11b/g
- Mobile Processor, (ULV CPU)
- IP 66 Rating
- Various Mounting Options

Fanless and Ruggedized Design

The COMPOSER is well suited to the hospitality environment where spillage is common. It is the perfect choice for pubs, clubs or venues that sell alcohol and beverages, and also for dusty and humid environments such as warehouses, kitchens and factories. It can be hosed down along with the entire bar, which makes cleaning easy and convenient.

The ruggedized COMPOSER is also ideal for Kiosk applications.

Intensive Display

- 15" TFT LCD – Display information clearly
- IR Touch Screen – Scratch & vandal proof
- Shared Video RAM - Display Hi-Resolution graphics and video

Die-Cast Aluminum Casing

- Ruggedized – Industrial application
- FIN Cooling Design – No fan & hole required / Repairs minimized
- Metallic Powder Coatings – Your choice of colors [silver/gold/champagne/black]

Advanced and Sleek Shape

- Functional - Desk mount on standard vesa mount
- Practical - User friendly
- Modern – Slim-line design to suit any environment

SENR COMPOSER is a **seamless and fanless** industrial PC. Its **ruggedized design** suits a wide range of applications.

Harsh Environment Capable

SENR's COMPOSER is an integrated system without any holes or fans. It has successfully passed advanced tests to ensure it is water resistant and dustproof (IP-66 ratings) so it effectively prevents water and dust from reaching the internal parts of the unit. The COMPOSER can perform even in the harshest environment where plenty of dust, liquids and/or steam can be found, such as, pubs, restaurants, kitchens, warehouses and factories.

If you need a tough and reliable PC with a large LCD display for visual comfort, then COMPOSER is the choice to go.
