# ER<sup>PLUS</sup> SERIES | Price Computing Scales

## Features

### Display options

The ER<sup>PLUS</sup> comes with an LCD display. Choose between the standard non-pole type or pole type display. The pole type display is reversed so that clients are in full view of price and weight.

LCD Display ▲

Standard Type ▲

Pole Type ▲

### Auto-power off function

The ER<sup>PLUS</sup> scale will automatically switch itself off if left unused for a set period of time.

### Soft touch tact switch key pad

Soft touch tact switch with silicon rubber keypad provides protection from such things as water, flour, dirt and other external objects interfering.

### Rechargeable battery

The scale can be used up to 200hrs(LCD) after recharging the battery for 10 hours.

### Double tray

Designed with both plastic and stainless steel trays that are made from heavy-duty and washable materials.

Stainless Steel >

Plastic >

### Dual interval technology with high resolution

High resolution (1/3,000) and dual interval technology which allows the scale weighing intervals to automatically change when a certain amount of weight is loaded on the tray.

## Ticket Printing System

### Connect with a ticket printer

The ER<sup>PLUS</sup> series can be connected to DEP-50 (Ticket) printer via RS-232C interface. Once connected the ER<sup>PLUS</sup> series can be used as a ticket printing scale. Furthermore, it is possible to modify the ticket format via PC ticket editing software that is provided.
